LUCI DELLA RIBALTA PROFESSIONAL LIGHTING PRODUCTS

alba f250 RGBW + TW

380W, 100/260VAC, DMX512+RDM LED fresnel luminaire

part # ■ 01201200 □ 01201201 ■ 01201202

A high efficiency led module featuring a 380W RGBW COB power source harnessed in the high-specification optics of LDR fresnel spotlights.

Ideal in all applications where heat and energy saving are a concern. Its extremely accurate optics make it the obvious choice in theatrical sets, TV studios, commercial displays and architectural applications where an even, soft-edged beam is required. Standard delivery includes 1.6m mains cable with fitted Power-con.

A recently-added new feature allows to choose from 10 preset whites, ranging from 2700K to 5800K, using a dedicated DMX channel, actually making the Alba RGBW a tunable white fixture as well.

All models in the Alba range are available in 3200K and 5600K white, RGBW and TW, in a choice of 3 finishes: black, white and silver, and 2 stirrups: manual and pole-operated
